CUSTOMER INFORMATION

Information For Ordering Activities Applicable to All Special Item Numbers

SPECIAL NOTICE TO AGENCIES: Small Business Participation

SBA strongly supports the participation of small business concerns in the Federal Supply Schedules Program. To enhance Small Business Participation SBA policy allows agencies to include in their procurement base and goals, the dollar value of orders expected to be placed against the Federal Supply Schedules, and to report accomplishments against these goals.

For orders exceeding the micro-purchase threshold, FAR 8.404 requires agencies to consider the catalogs/pricelists of at least three schedule contractors or consider reasonably available information by using the GSA *Advantage!*TM on-line shopping service (www.fss.gsa.gov). The catalogs/pricelists, GSA *Advantage!*TM and the Federal Supply Service Home Page (www.fss.gsa.gov) contain information on a broad array of products and services offered by small business concerns.

This information should be used as a tool to assist ordering activities in meeting or exceeding established small business goals. It should also be used as a tool to assist in including small, small disadvantaged, and women-owned small businesses among those considered when selecting pricelists for a best value determination.

For orders exceeding the micro-purchase threshold, customers are to give preference to small business concerns when two or more items at the same delivered price will satisfy their requirement.

1a. Special Item Numbers:

CORPORATE OVERVIEW

About L-3 Services, Inc., MPRI Division - Taking Expertise Around the World

MPRI is a professional services company that consists of former military, law enforcement, diplomatic and private sector leaders who share a common commitment to uncompromising integrity, professionalism and the values that are at the very foundation of our nation. Incorporated by eight retired senior military leaders in 1987, MPRI has its headquarters in Alexandria, Virginia and manages programs throughout the United States and in more than twenty countries overseas.

With more than 1500 employees worldwide, MPRI provides comprehensive and integrated programs that address training, education, leader development, organizational design and implementation, democracy transition, and emergency management across a broad spectrum of functional areas.

Our Mission

MPRI's mission is to focus the experience, expertise and values of our workforce to develop and implement comprehensive, imaginative programs that build security, justice and well being within the United States and around the world. We serve the national security needs of the U.S. government, selected foreign governments, international organizations and the private sector with programs of the highest standards and methodologies of proven effectiveness.

Our core competencies center on security sector reform, institution building, the development of leaders at all levels, training, education and emergency management. Our primary resources are our people – men and women of courage and commitment who have devoted their lives to the nation and who now apply their skills, experience and deeply held values to the challenges of a rapidly changing international and national security environment.

It's What We Do

MPRI conducts a wide range of missions, requiring defense, law enforcement, and leadership development expertise. Areas where MPRI provides outstanding capabilities include, but are not limited to, the following:

- Training and Education
- Professional Development Programs
- Programming, Budgeting, and Strategic Planning
- War Gaming, Modeling and Operation of Simulation Centers
- Development and Operation of Combat Training Centers
- Corporate Staff Training
- Strategic Business Solutions
- Force Development and Management
- Organizational Assessments Design and Structuring
- Democracy Transition Assistance Programs
- New Equipment Integration and Training
- Evaluations and Assessments
- Logistics Planning, Management and Installation Operations
- Doctrine Development
- Peacekeeping and Humanitarian Aid
- Anti-Terrorism/Force Protection
- Law Enforcement Expertise
- Investigations
- Consequence Management

Training Courses, Aids and Devices

MPRI provides a wide variety of training solutions for that provide comprehensive programs that build security, justice and well being within the United States and around the world. MPRI provides training across a broad

spectrum of solutions including fire arms/weapons training, simulated driving training, trade/vocational training and mission training.

MPRI provides training solutions that encompass multiple SINs including:

Special Item Number (SIN)	FSC Class	Description
27-100	6910	Teaching Machines/Devices
27-200	6930	Prepared Printed Instructional Material
27-300	6930	Prepared Audio & Visual Instructional Material, Multi-Media Program Kits
27-400	6930	Instructor-Led Training
27-500	6930	Course Development, Test Administration

MPRI provides training solutions in three distinct areas including:

MPRI Ship Analytics Training Solutions

MPRI Ship Analytics provides emergency management and homeland security services and maritime and driving simulation products worldwide. Our products have been in use throughout the world for more than 30 years. MPRI Ship Analytics provides a broad range of training products and services including:

- Real-time maritime training simulators
- Vehicle training systems
- Turnkey training facility development
- An array of security and emergency operations assessments training and exercise development services.

MPRI Ship Analytics is versatile and is positioned and ready to provide our unique training products and services to diverse customers in the U.S. and overseas. Our employees are among the most competent and dedicated professionals in the industry. MPRI Ship Analytics is structured and staffed to accommodate the full range of government and private sector “outsourced” activities and functions. We are particularly skilled in assisting our customers in contending with complex defense - and domestic security related challenges.

MPRI BeamHit Training Solutions

MPRI BEAMHIT provides patented Laser Marksmanship Training Systems (LMTS) to military and law enforcement organizations worldwide. In addition, it provides other cutting edge products that reflect its capabilities in a range of technologies and disciplines to include electro-optic systems design, lasers, training courseware development, product testing and evaluation, program management, and quality assurance. Affordable, safe and user friendly, MPRI BEAMHIT systems range from simple audio/visual feedback to the very latest computerized targets that allow you to practice anytime, anywhere - including the comfort of you own home.

Designed to be an integral part of a well-rounded small arms marksmanship training program, Laser Marksmanship Training System (LMTS) support direct fire weapons from handguns through machine guns. Capabilities that include basic rifle and pistol marksmanship training, pre-live fire, pre-deployment, indoor machine gun training, counter-sniper and tactical training as well as night fighting and NBC operations, are just some of the ways LMTS Systems are being utilized today by the US Armed Forces. With BEAMHIT™ Laser Marksmanship Training Systems, your departments can safely and inexpensively reach the personnel who need critical firearms and tactical training as never before.

From enhancing basic skills to advanced shooting skills, to developing real-life scenarios and drills, BEAMHIT Systems allow people to train anytime, anywhere using their own weapons with freedom of movement – all while getting immediate and accurate feedback. BEAMHIT makes it possible to meet individual as well as organizational requirements in exceptionally safe, interactive dry-fire training environments that produce spectacular results. With BEAMHIT training the possibilities are endless – just like the real world.

MPRI Mission Training Solutions

MPRI's training methodology is modeled after the U.S. Army. The key to fighting and winning is an understanding of "how we train to fight" at every echelon. Training programs must result in demonstrated tactical and technical competence, confidence, and initiative in our soldiers and their leaders. Training will remain the Army's top priority because it is the cornerstone of combat power. MPRI's training methodology is well founded in doctrine and our experienced war proven pre-deployment, integration, and front line sustainment trainers are recognized throughout the world.

In cases where mission tasks involve emerging doctrine or non-standard tasks, a government or military organization establishes tasks based on the political and socio-economic climate, conditions, lessons learned from similar operations, and their professional judgment. Senior commanders of armed forces establish and approve a Mission Essential Task List (METL) based on their Mission Mandate and coordination with a host nation (if employed within their sovereign borders). MPRI uses a crawl, walk, and run effective method of instruction (EMI). Once the commander identifies his Leader, Individual, Collective, and Battle Staff METLs, the formalized Program of Instruction (POI) is developed for each METL task.

Labor Category Descriptions ~ Battle Task

Program Manager I

Functional Responsibility

Manages contractual relationships with clients and has the authority to dedicate company resources to a client project. Oversees multiple, simultaneous projects at the program level. Maintains a thorough knowledge regarding MPRI's proven training methodology with extensive pre-deployment, integration and front line experience. Has the demonstrated ability to set and maintain overall direction for a program, to control overall scope, budget, and schedule for complex, multi-project programs, has the ability to communicate with client executive management to ensure that critical program issues are addressed.

Position Qualifications

Bachelor's Degree or equivalent experience and 15 years of relevant experience

Project Manager I - II

Functional Responsibility

Provides day-to-day direction and control of training efforts related to Battle Task training projects. Maintains a thorough knowledge regarding MPRI's proven training methodology with extensive pre-deployment, integration and front line experience. Must be experienced in planning and managing projects and must have demonstrated ability to achieve the desired results. Provides guidance to project teams, tracks and reports on project status, and ensures that all project issues are successfully resolved.

Position Qualifications

Project Manager I

Bachelor's Degree or equivalent experience and 10 years of relevant experience

Project Manager II

Bachelor's Degree or equivalent experience and 12 years of relevant experience

Trainer I - III

Functional Responsibility

Maintains a thorough knowledge regarding MPRI's proven training methodology with extensive pre-deployment, integration and front line experience. Utilizes classroom instruction to establish a knowledge base and hands on demonstrations to ensure trainees comprehend the task and standards that must be performed. Conducts practical exercises to ensure trainees can apply new found skills under the conditions in which they are expected to operate. Develops, assesses and evaluates instructional materials and activities, including appropriate use of instructional materials and instructional technologies. Provides customized training and professional development which result in demonstrated tactical and technical competence, confidence, and initiative in our soldiers and their leaders. Evaluates training against measurable standards; conducts after-action reviews. Designs instructional and training programs utilizing accepted U.S. military training methodologies.

Position Qualifications

Training Specialist I

Bachelor's Degree or equivalent experience and 4 years of relevant experience.

Training Specialist II

Bachelor's Degree or equivalent experience and 6 years of relevant experience.

Training Specialist III

Bachelor's Degree or equivalent experience and 8 years of relevant experience.

BeamHit Extended Warranty

EXTENDED WARRANTY			
An extended warranty may be purchased and paid at time of original equipment purchase. Up to five (5) years may be purchased at the rates quoted. Extended warranty includes one additional year of repair/replacement of any System or Product with new or refurbished parts (excluding consumables and scoring devices); unlimited toll-free technical support calls; free software updates; free shipping of replacement or repaired parts. Prices based on total purchase price of equipment.		8%/year	
ASSEMBLY/SETUP/TRAINING			
In CONUS			
Assembly, setup, and new equipment training - per trainer per day at customer site in CONUS.		\$1,200.00	
Outside CONUS			
Assembly, setup, and new equipment training - per trainer per day at customer site outside CONUS.		Call for Quote	
SALES TERMS AND CONDITIONS			
1. All prices are FOB destination for all CONUS locations. Shipping and handling to OCONUS locations billed at cost.			
2. All shipping USP Ground Track unless otherwise requested.			
3. Government IMPACT card accepted.			
4. One-year standard warranty on all items. Warranty returns require a BEAMHIT-issued Return Materials Authorization (RMA). This should be clearly marked on the outside of the shipping container. Call (410) 309-1500, Government Customer Service, to request this information. Unauthorized returns will not be accepted.
